

GRAYCELL ADVISORS

PRUDENCE • PATIENCE • PERFORMANCE

Terms & Conditions

This Agreement describes your rights and responsibilities for your access to and use of this website, as well as information about the newsletter.

Please read this entire agreement carefully before using our website. Your subscription will assume you have read and will comply with the agreement.

1. Terms and Conditions of Service (TCS). Graycell Advisors (together with its affiliates and employees referred to herein as "GA" or "we" or "us") is a publisher of financial and investment commentary and opinions, including, but not limited to subscription-based newsletter services, like the Prudent Biotech and Prudent Small Cap newsletters, along with any related publications ("Newsletter", "Report", "Publication", "Subscription", "Service"). The Newsletter presents our model portfolio. Please carefully read the Terms and Conditions of Service ("TCS") set forth below. As a condition of using the website and subscription, you agree to the TCS.

By using the Service, you affirm that you are at least 18 years of age and are not otherwise barred from receiving and using the newsletter under the laws of the United States or other applicable jurisdictions. You also affirm that you are able and competent to enter into this Agreement and to abide by and comply with the TCS. In addition, you will not use the content on the website or our name and server to violate any US or international laws, including copyright and spamming.

2. Responsibility. You alone are responsible for your investment decisions. The information contained herein does not constitute a personal recommendation or consider the particular investment objectives, financial situations, or needs of individual investors. Subscribers and investors should always conduct their own due diligence with any potential investment. You should independently verify all information contained in the Newsletter, and on our website(s), and consider obtaining professional advice before making any investment decision.

3. Risk. All stock investments carry a degree of risk. By investing in any of the stocks of the companies profiled or mentioned in the Newsletter, etc., you can and may lose some or all your investment. Do not invest in any stock if you are not prepared to lose your entire investment. We are not liable, nor do we assume any responsibility for losses incurred because of any information provided or not provided or not made available on time,

herein or on our website, or through any other medium. In addition, we do not guarantee the accuracy and completeness of any information furnished by us. Even following all our suggestions will not assure positive results.

4. Volatility. Stocks are volatile. Some segments, like biotech and small cap, are even more volatile due to the nature of the industry and the market segment. Significant monthly volatility should be expected based on market conditions. In the case of an industry-specific newsletter, like biotech, there is a significant additional risk from one-industry exposure, as would be true for any industry-focused portfolio or fund. A concentrated portfolio of 8-or-10 holdings will have greater up-and-down volatility than the same industry fund or an industry index, like the Nasdaq Biotechnology Index or the small cap Russell 2000 index, with many more holdings running into hundreds and even thousands of stocks.

5. Performance. Past performance is no guarantee of future success, and you should not assume that the performance of our model portfolio in the future will meet or exceed the model's historical performance. Historical performance figures and analysis provided are hypothetical, unaudited, and prepared by us. Performance before the launch of the product was backtested. No actual trades have taken place. The performance results obtained are intended for illustrative purposes only, and although we believe the results to be accurate, we cannot guarantee it and they have not been independently verified.

6. Non-Advisor. We are not a registered investment advisor, also known as RIA, and nothing contained in any materials should be construed as a recommendation to buy or sell securities.

7. Member Portfolio Results. Actual performance results achieved by members will differ by some measure from results reported for the portfolio for various reasons, including, without limitation:

- model portfolio performance results do not reflect trading commissions and exchange fees
- model portfolio performance results do not account for the impact, if any, of certain market factors, such as lack of liquidity, to initiate or close positions, that may affect results
- model portfolio positions are opened and closed at the opening prices on the first trading day after the publication of the newsletter. Such prices may not be available, and could be better or worse, at the time trades are placed by members
- model portfolio prices are recorded at the beginning of the month while members may join at any time during the month, at which time prices may be different - higher or lower

8. Existing Positions. We may or may not have existing positions in the stocks mentioned in the newsletter before the dissemination of the newsletter. We do not favor any subscriber of a product, and a bulk alert is sent to all subscribers via email once the newsletter is available in the Members Area.

9. Models. Our models are proprietary and/or licensed. We can change the models at any time without any notification. The historical performance will change anytime a revision occurs. We also have dedicated products that can be used by professional investors and institutions and that can leverage the same models.

10. Registration Information. You are responsible for keeping your information updated, particularly the email address, for that is the only way we communicate and send out notifications. An update to the email address can be done by clicking on the Edit Profile button on the Members Home Page.

11. Your Right to Receive an Issue. Based on the type of service, you are entitled to a monthly issue for the subscription period. In the case of monthly publications, there are 12 issues published in a single year. If we are unable to publish the newsletter within 50 days of the last issue or terminate the service, you will be entitled to a refund based on the number of unused months remaining on your subscription. This refund is not affected by any limit for the money-back guarantee. No interest will be provided on any refunds.

12. Your Responsibility to Not Share the Subscription. You are purchasing or have purchased a subscription service for yourself. You agree not to share this newsletter with other individual investors or institutions so the other party or parties can avoid a subscription. One subscription for one investor. The standard industry practice of IP capturing is done upon login. Please avoid sharing this newsletter with non-subscribers so you can receive the best entry prices and outcomes. By forwarding or sharing the newsletter with unpaid subscribers, you hurt our ability to monetize our work. Such a situation can lead to closing the product or raising prices. It will hurt all subscribers. In case of a violation, we will cancel the subscription at our discretion with no refund for unused months.

13. Refund. You can cancel at any time within the full refund period of 60 days from your payment. So, you have 60 days to make up your mind without refund worries and see if the product can contribute to your goals. After 60 days, no full, partial, or pro-rated refunds will be done. Please note, the refund guarantee period is only for first-time new subscribers.

14. Renewal. We do not automatically renew. To avoid service interruption, a subscription renewal must be done before its expiration. Such renewals can take place at any time, and you do not have to wait for the last month. Simply log in and then go to either the Sign-Up page or click on the Renewal button on the Members Page and follow the directions. You will receive email alerts periodically as you approach the end date. A renewal payment can be fully refunded before the start of the renewal period. Once the renewal period begins, there is no full, partial, or prorated refund.

15. Dispute. In any dispute, and where any of the limitations or disclaimers are ineffective or inapplicable, you agree that our maximum liability will be the amount of money remaining on your unused full months of subscription.

16. Resubscribing to Avoid Payment is Prohibited. You will not engage in any cheating to avoid paying the subscription price. This includes registering for a subscription to any newsletter only to cancel within the refund period and then using a different email to purchase a new subscription to again cancel within 60 days, and so forth, to avoid paying for the service. This is a violation, and no refund will be issued for any portion even if you are within the 60 days refund period. Please note, the refund guarantee period is only for the first-time new subscribers.

17. No-risk Subscription Offer. The offer to refund your subscription within a specific period cannot be used again within 6 months from the date of the Refund. After your first Sign Up, if you decide to cancel and receive a refund, you may NOT Sign Up again within the 6-month duration and expect the same refund period offer. Instead, you can still Sign Up, but the new subscription will not be covered by the refund offer and you cannot request a refund.

18. Our Right of Cancellation. We have the right to not accept your subscription or discontinue it at any time during the subscription period without offering a reason. We may terminate your access to the Newsletter and the Website at any time at our sole discretion. In such situations, we will provide a pro-rata monthly refund for any paid subscription. However, if we terminate your access to the Service because you have violated any provision of the TCS, including without limitation by seeking to register and cancel multiple times to secure access to a paid subscription without paying applicable subscription fees or making slanderous comments on public forums, etc., you will not be entitled to receive a refund of any portion of the subscription fee paid by you.

19. Your Right of Cancellation. You may choose to cancel at any point. If your cancellation request is within the money-back guarantee period, you shall receive a full refund of the paid amount. If the request falls after the money-back guarantee period, you will not be refunded any amount and will lose your membership access. In such a situation,

a better alternative for you can be to let the subscription expire at the end of the period and not renew while retaining your access to the remaining subscription period.

20. User Code of Conduct. You agree to not do any of the following:

- use the Service for any unlawful purpose
- permit anyone else whose account or subscription was terminated or someone who has not registered or paid for our content to use any portion of our paid newsletter service by sharing your subscription, or by sharing the content with an unpaid subscriber
- restrict or inhibit any other visitor or member from using our newsletter
- engage in hacking, spamming, or defacing any portion of our websites or newsletter
- "frame" or "mirror" any part of our website(s) without our prior written authorization
- copy any content without our written permission
- making slanderous comments about us on public forums or directly to us

If you have any questions about our Terms of Use, please contact us by email or use the contact form.

IMPORTANT DISCLAIMER

Graycell Advisors, its affiliates, officers, employees, families, and all other related parties, collectively referred to as 'Graycell' and/or 'we,' is a publisher of financial information, such as the Small Cap, and Prudent Biotech newsletters. We are not a Registered Investment Advisor (RIA). Historical performance figures provided are hypothetical and unaudited and based on our proprietary analysis and system performance, backtested over some time. Hypothetical or simulated performance results have limitations, and unlike an actual performance record, simulated results do not represent actual trading and consequently do not involve the financial risk of actual trading. The performance results obtained are intended for illustrative purposes only. No representation is being made that any account will or is likely to achieve profit or losses like those shown. Past performance is not indicative of future results, which may vary. All stock and related investments have a degree of risk, which can result in a significant or total loss. In addition, biotech industry and small caps are characterized by much higher risk and volatility than the general stock market.

The information contained herein is general and does not constitute a personal recommendation or consider the particular investment objectives, financial situations, or needs of individual

investors. If you decide to invest in any of the stocks of the companies mentioned in the newsletters, samples, alerts, etc., sent to you or available on our websites, you can and may lose some or all your investment. You alone are responsible for your investment decisions. Use of the information herein is at one's own risk. We are simply sharing the results of our model.

Nothing should be construed as a recommendation or an offer to buy or sell any securities, and we are not liable, nor do we assume any liability or responsibility for losses incurred because of any information provided or not provided or not made available promptly, herein or on our website or using any other medium. We cannot guarantee the accuracy and completeness of any information furnished by us.

We may or may not have existing positions in the stocks mentioned in our reports. Our models are proprietary and/or licensed and can be changed or revised based on our discretion at any time without any notification. Subscribers and investors should always conduct their due diligence with any potential investment and consider obtaining professional advice before making an investment decision. © Graycell Advisors
